Local: (801) 240-2286

Toll Free: (800) 453-3860 ext. 2-2286

Couples are needed to serve at military bases throughout the world. Responsibilities include activating and retaining LDS trainees attending basic and advanced military training, assisting local Church leaders in supporting LDS trainees who are restricted to base, as well as helping with military families of deployed service members. Proselyting is not allowed on military bases, but couples will teach new member lessons to converts, teach institute classes to service members, organize family home evening programs for single military members, and build bridges of understanding with military chaplains, commanders, and the base community. While not a requirement for serving, a Retired Military ID card is very important to gain access to military bases. Senior couples may reside in their home near a military base, if they desire. Opportunities are available and open worldwide!

Adventure Assignments

Local: (801) 240-8488

As a Family and Church history missionary you will have access to the resources of both the Family History Library and the Church History Library. During your first two weeks, you will attend the training zone of the mission. Here the staff will give you general instruction on the work that goes on in the many zones of the mission, as well as one-on-one computer familiarization training. Once you are assigned to a specific zone, you will receive additional instruction for that work area.

The mission housing director will assist missionaries in locating housing. Cost per month for the mission is \$1,000 for single sisters and \$1,700 for couples. There is a thirty-five to forty hour per week schedule. Some of the zones require shift work.

The family history side of the mission involves working with patrons to assist them in their genealogical research. Other missionaries support indexing and processing names for the temples. The Church history side of the mission includes zones working in the Church History Library and the Church archives, doing historical research and summarizing journals and other records of historical interest. Other zones answer phone

inquiries and e-mail questions coming from family history centers and from individuals around the world.

Most assignments require some computer skills or research skills. Experience with PAF, TempleReady, and Internet software programs is helpful. Other skills needed include college English and writing experience. Knowledge of a second language is often very helpful. Training programs to assist those less proficient and to upgrade the more proficient missionaries are available. This assignment is also appropriate for members who live on the Wasatch Front and could serve as live-at-home missionaries. We urge anyone with interests or skills in family and Church history work to apply.

ESTIMATED MONTHLY MISSION COSTS FOR SENIOR COUPLES US \$/MONTH

The following costs include apartment rental, utilities, food, and transportation. These costs DO NOT include prescriptions, tithing, fast offerings, cell phones, automobiles, personal care items, and apartment set-up costs. **Health insurance premiums are NOT included because most missionaries have made their own arrangements. Also, because missionaries are guests, the socialized medical systems of host countries should not be thought of or used as a way to reduce the cost of serving.** Once your call is received, it would be wise to contact the missionaries you will be replacing or others with similar assignments. This can be done through your mission president and will provide you the most current local information. Missionaries should arrive in the field with access to two month's funds.

MISSIONARY ONLINE RECOMMEND SYSTEM

www.lds.org/mss

The Missionary Online Recommend System streamlines the submission of missionary candidate recommends. Electronic forms can be conveyed, reviewed, modified, and processed much faster than paper forms.

Take some time to learn about the system. The following information may be very helpful to you.

1. Use Site Tours to get familiar with the system. Open your browser and input www.lds.org/mss/start in the address field. Under **Site Tours** click on the tour you would like to view.
2. Bishops first initiate a recommendation; missionaries then create their own accounts by clicking on **Obtain an Account** and using their membership number and confirmation date. After creating a personal account, the missionary logs on with his or her own user name and password. The password should contain at least 8 characters and must contain at least one number. Couple missionaries should have individual accounts for both husband and wife.
3. When entering membership numbers, use all leading zeros and digits only, no spaces, commas, or hyphens.
4. Your user name and password are required each time you log on. Please record user names and passwords for future use.
5. If you forget your password, click on **Forgot My Password** to enter a new password. Please keep your password in a safe place.
6. If you forget your user name, begin to create a new account with another easily remembered user name. The system will return with the original user name that corresponds with the provided membership number and confirmation date. Please keep user names for future use.
7. If the system does not return the original user name, the new user name can be used. Use your membership number and confirmation date to create a new password.
8. Avoid backspaces and returns. Use the mouse to move around in the system. Use the number keypad to enter numbers.
9. **Save** your work. If you select **Do Not Save** you will have to re-enter the information.
10. When you have completed a section, **Save** your work and then **finish** the section. A dark green checkmark will appear in the section box to let you know you have successfully completed that section.
11. The Missionary Online Recommendation System works well using Internet Explorer which can be downloaded for free from the Internet. Other Internet browsers may also work. You will need to disable any pop-up blockers that are running on your computer while using the system. Dial-up systems will have more problems than high-speed connections.
12. If you have problems with the system, contact your stake technology specialist. If they are unable to solve the problem, they can call the help desk for assistance.
13. You can submit a senior missionary recommendation up to six months in advance of your availability date.
